PP Compression Coupler

Original photo from the supplied product library. Illustration of the fitting family only; it does not identify a size, series or pressure rating.

SELECTION SUMMARY

Fitting family
Equal compression coupling

Listed combinations
9

Pressure rating
Confirm for the selected series

Source series label
IRRITEC

LISTED SIZE COMBINATIONS

First pipe OD (mm)	Second pipe OD (mm)
20	20
25	25
32	32
40	40
50	50
63	63
75	75
90	90
110	110

Size entries follow the supplied IRRITEC-series list (source label). Confirm the series actually supplied; the label is not a certification or a pressure rating.

This document lists selected size combinations only. It does not establish a pressure class, thread standard, service temperature, drinking-water approval or installation procedure.
