PP Compression Flanged Adaptor

Original photo from the supplied product library. Illustration of the fitting family only; it does not identify a size, series or pressure rating.

SELECTION SUMMARY

Fitting family
Compression / flange

Listed combinations
10

Pressure rating
Confirm for the selected series

Source series label
IVM

This document lists selected size combinations only. It does not establish a pressure class, thread standard, service temperature, drinking-water approval or installation procedure. The complete selected size table follows.

BEFORE ORDERING

Confirm the exact fitting series, pipe size and grade, required pressure, service conditions, quantity and mating connection. Availability is subject to confirmation.

DOCUMENT SCOPE

Selection reference prepared from supplied product data. Not a certificate, test report or engineering design. Sizes not listed must be checked separately.

PP FITTINGS · DIMENSIONAL REFERENCE

PP Compression Flanged Adaptor

Listed combinations 1–10 / 10

LISTED SIZE COMBINATIONS

Pipe outside diameter (mm)	Catalogue flange size (in)
40	1 1/2
50	1 1/2
50	2
63	2
63	2 1/2
75	2 1/2
75	3
90	3
90	4
110	4

Size entries follow the supplied IVM-series list (source label). Confirm the series actually supplied; the label is not a certification or a pressure rating.

The second column is the catalogue flange-size designation in inches, not a thread specification. Bolt holes, pitch circle, flange standard and pressure class are not specified here and must be matched before ordering.
